

Extraction bags

Extraction meshes made of 100% nylon filter food grade and unstained. The meshes, made of monofilament polyester, are a conical shape and all of them are filtering, from the bottom to the top so that facilitate water drainage, as they have been specifically designed to save time and labor to help making our extractions. Made from laser cut, with triple reinforced stitching to increase its durability and heat resistant up to 225 °C. Including practical locking laces to facilitate its use. All mesh sets include a 25 micron drying sieve, to dry your extractions optimally as well as a carrying bag. Available in different sizes and combinations.

Kits Standard

Harvesting for
all types of crops

Versatile and easy to use, ideal for clean and consistent extractions. Complete kits offering excellent value for money for all skill levels.

Kit 20 liters

3 bags	5 bags	9 bags
microns 220 - 120 - 25	microns 220 - 160 - 120 73 - 25	microns 220 - 190 - 160 140 - 120 - 90 73 - 45 - 25
RRP 80,00 €	RRP 130,00 €	RRP 210,00 €

Includes 25 micron drying screen 20x20 cm and carrying bag.

Kit 120 liters

3 bags	5 bags	9 bags
microns 220 - 120 - 25	microns 220 - 160 - 120 73 - 25	microns 220 - 190 - 160 140 - 120 - 90 73 - 45 - 25
RRP 200,00 €	RRP 340,00 €	RRP 550,00 €

Includes 25 micron drying screen 30x30 cm and carrying bag.

Kits Fresh Frozen

**Specially designed
for fresh and frozen produce**

Designed for use with fresh-frozen material.

Maximum purity, efficient filtration and professional results
in high-quality extractions.

Kit 20 liters

PROFESSIONAL	CONNAISEUR
7 bags, microns: Canvas 220 - 160 - 140 - 120 100 - 73 - 45	10 bags, microns: Canvas 220 - 190 - 160 - 140 120 - 100 - 90 - 73 - 45 - 25
RRP 180,00 €	RRP 250,00 €

Includes 25 micron drying screen 20x20 cm and carrying bag.

Kit 120 liters

PROFESSIONAL MANUAL	CONNAISEUR MECHANICAL
7 bags microns: Canvas 220 - 160 - 140 - 120 100 - 73 - 45	10 bags, microns: Canvas 220 - 190 - 160 - 140 120 - 100 - 90 - 73 - 45 - 25
RRP 460,00 €	RRP 615,00 €

Includes 25 micron drying screen 30x30 cm and carrying bag.

Kit 70 y 120 liters

Same diameter, allowing the use of the same brackets, hubs or frame

PROFESSIONAL MECHANICAL	CONNAISEUR MECHANICAL
3 bags 70 liters, microns: 220 - 160 - 140 4 bags 120 liters, microns: 120 - 100 - 73 - 45	4 bags 70 liters, microns: 220 - 190 - 160 - 140 6 bags 120 liters, microns: 120 - 100 - 90 - 73 - 45 - 25
RRP 410,00 €	RRP 545,00 €

Includes 25 micron drying screen 30x30 cm and carrying bag.

Kits Outdoor

**Extraction
optimised
for outdoor
cultivation**

Designed to handle
materials with a high degree
of structural variability.
Durable materials,
high capacity
and optimal performance.

Kit 20 liters

PROFESSIONAL

6 bags , microns: Canvas 220 - 140 - 120 - 90 - 73 - 25

RRP **150,00 €**

Includes 25 micron drying screen 20x20 cm and carrying bag.

Kit 120 liters

PROFESSIONAL MANUAL

6 bags , microns: Canvas 220 - 140 - 120 - 90 - 73 - 25

RRP **390,00 €**

Includes 25 micron drying screen 30x30 cm and carrying bag.

Kit 70/120 liters

Same diameter, allowing the use of the same brackets, hubs or frame

PROFESSIONAL MECHANICAL

2 bags 70 liters, microns: 220 - 140

4 bags 120 liters, microns: 120 - 90 - 73 - 25

RRP **350,00 €**

Includes 25 micron drying screen 30x30 cm and carrying bag.

Single bags

Bags 4 liters 19 cm diameter - 25 cm length

Microns: 220 - 190 - 160 - 140 - 120 - 90 - 73 - 45 - 25

RRP **19,00 €**

Compact and efficient. Ideal for small-scale production, with precise filtration and durable materials.

Bags 20 liters 31 cm diameter - 44 cm length

Microns: 220 - 190 - 160 - 140 - 120 - 100 - 90 - 73 - 45 - 25

RRP **25,00 €**

Ideal for medium-scale production. Clean filtration, durable materials and excellent performance every time.

Bags 120 liters 48,5 cm diameter - 82 cm length

Microns: 220 - 190 - 160 - 140 - 120 - 100 - 90 - 73 - 45 - 25

RRP **65,00 €**

Ideal for large-scale production. Maximum capacity, uniform filtration and durable materials designed for heavy-duty use.

Bags 70 liters 48,5 cm diameter - 35 cm length

Baskets compatible with 120-litre models

Same diameter, allowing the use of the same brackets, buckets or frame

Reduced height, ideal for mechanical work

Microns: 220 - 190 - 160 - 140

RRP **49,00 €**

Spacious yet compact design. Professional-grade filters with the same diameter as the 120-litre models, but more compact.

Mesh with Canvas side

Bags 20 liters

Microns: 220

RRP **25,00 €**

Bags 120 liters

Microns: 220

RRP **65,00 €**

420D heavy-duty tarpaulin top. 15 cm bottom and base made of 220 micron monofilament nylon mesh. Laser cut, with triple reinforced stitching for increased durability. With locking drawstrings for easy handling

Accessories

Washing bags

8 liters

220 microns

RRP **20,00 €**

20 liters

220 microns

RRP **30,00 €**

50 liters

200 microns

Large volumes

RRP **49,00 €**

Washing machine bag made 100% of nylon, food grade and undyed. With zip lock and safety closure, made from laser cut and triple reinforced seams to avoid losing any plant material. Heat resistant up to 225 °C. High durability.

Prefilter

Prefilter 10x30 cm

Microns: 220

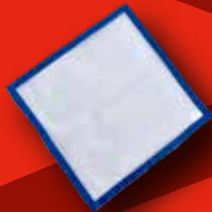

RRP **12,00 €**

The prefilter has been designed to attach on the drain of the washing machine or on the drain tap of the bucket where we are doing our extraction filtering possible impurities. Fits any drain outlet and includes a safety lock to avoid any setback. Laser cut, with triple reinforced stitching to increase its durability and heat resistant up to 225 °C. With convenient lock laces to facilitate its handling.

Drying mesh

For drying the extractions resulting from the washing process of vegetable matter without sticking to any surface, well ventilated thanks to its micron size.

20x20 cm

25 microns

RRP **7,00 €**

30x30 cm

25 microns

RRP **10,00 €**

50x50 cm

25 microns

RRP **16,00 €**

Screen Mesh

100x100 cm

73 microns y 120 microns

RRP **50,00 €**

Dry screening or sieving mesh.

Laser-cut, with reinforced edges for increased durability.

Heat resistant up to 225°C.

Made of food-grade monofilament nylon, undyed.

Rosin bags

5 UNITS

RRP **14,00 €**

200, 160, 140, 120, 73, 45 and 25 microns.

7x10 cm filters for Rosin extraction.

Heat resistant up to 225 °C.

High durability.
